top 10 apps middle school

language central for science (earth, life, & physical)

A science vocabulary set of apps that align with the NESa test for science. Our science teachers used it to help kids prepare for the vocabulary they would find in the test. (iPod – free)

bookworm

Think quickly & link letter tiles left, right, up, & down to form words. The bigger the word, the better the bonus. Be sure to keep an eye out for the burning letters. (free)

tinkerbox

Students must build a machine to accomplish a task. As they work through the machines become more & more detailed. Students may also create their own designs & submit them to be used. (free)

stack the states

This app comes both as a free or paid app. A fun way to teach state recognition. (free/\$0.99)

presidents vs. aliens

From the makers of & similar to *Stack the States*, in *Presidents vs. Aliens*, students learn facts about our nation's presidents to defeat the aliens. (free/\$0.99)

factor samurai

A great app to help kids learn multiplication facts & also helps kids learn factors of numbers in a game format. (\$2.99)

number line

Gives kids practice ordering all types of numbers including fractions, decimals, whole numbers & negative numbers. (iPod – free)

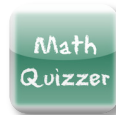

angry birds

This app is used by our 5th grade science teacher to teach the basics of potential & kinetic energy. They also discuss force & trajectory & what type of energy the pigs & the birds have. (free/iPod - \$0.99/iPad - \$2.99)

leafsnap

This app is used by our biology teacher. With this app kids can take pictures of the leaves & the app will give them information about that leaf. It will tell them what tree & where the tree will grow as well as other useful info. (free)

math quizzer

Math Quizzer is used for practicing math facts in addition, subtraction, multiplication, & division. (iPod – free)
